

(Boil Water Notice for City of Littlefield) Due to a water main leak the pressure to the City's public water system dropped below the standard, the Texas Commission of Environmental Quality mandates that notice be sent to all customers accessing the City of Littlefield's water system to boil water prior to consumption in order to ensure the destruction of harmful bacteria microbes, water used for drinking, cooking, and ice making should be boiled and cooled prior to its consumption. Water must be brought to a vigorous rolling boil for at least 2 minutes. The boil water notice will continue until further notice.
